

SECTION III: MEMBERSHIP CLASSIFICATION & DUES SCHEDULE

Membership with NMMA is open to any business entity that qualifies for any one of the Membership Classifications set forth below. Please reference the unique requirements for each of the three manufacturing divisions and Associate member categories.

Boat Manufacturer Division (BMD): A business entity that manufactures or imports boats.

NMMA Certification of BMD product is a requisite for membership within 12 months of joining NMMA. Completion of NMMA Certification is required prior to receiving the discounted member rate at NMMA Boat Shows.

The Discover Boating Membership fee is the primary funding tool which requires all BMD members to participate by paying fees on the engines that are used on their boats.

BMD applicants outside North America must have a certificate of authority from at least one state of the United States showing it is legally authorized to conduct business in that state, thereby submitting to its jurisdiction.

Engine Manufacturer Division (EMD): A business entity that manufactures marine propulsion engines.

The Discover Boating and Core Funding Membership fees are funding tools which require all EMD members to participate by paying fees based on the horsepower of engines sold.

A business must manufacture primary marine propulsion engines that demonstrate compliance with EPA regulations.

EMD applicants outside North America must have a certificate of authority from at least one state of the United States showing it is legally authorized to conduct business in that state, thereby submitting to its jurisdiction.
